SUMMARY

Passionate about technology, with an adequate experience background in software development, UI implementation, and collaborative teamwork. Continuously driven to learn, improve, and contribute to innovative and meaningful projects, with a strong focus on problem-solving and user-centered thinking. Also, known for being able to adapt in fast-paced environments and comfortable working independently or with a team, and still always aiming to grow both technically and professionally.

EXPERIENCE

Full Stack Software Engineer

Oaktree Innovations

March 2025 – May 2025, Laguna, Philippines · Remote

- Contributed to internal and client-facing web applications in a fully remote, agile development environment.
- Developed and enhanced features using **React.js**, **Next.js**, and **FastAPI**, ensuring alignment with **Figma-based UI/UX designs** and occasionally implementing custom designs.
- Participated in the development of the **PREDIKTA Marketing App** for **Netopia AI**, implementing UI components and integrating them with backend APIs.
- Gained hands-on experience in real-world software development, improving **technical proficiency**, **problem-solving skills**, and **team communication**.

Data Entry Clerk (Work Immersion)

Nelpa Lifesciences Inc.

February 2021 – February 2021, Metro Manila, Philippines · Remote

- Transcribed medical documents from PDFs and images into Microsoft Word while maintaining original format.
- Ensured accuracy and consistency in document structure and layout.
- Developed fast and precise typing skills for high-volume data entry.

PROJECT

TaskFlow – Full Stack Web App

Oaktree Innovations · tinyurl.com/task-flow · March 2025 – April 2025

- Completed a company-provided development curriculum to prepare for client-based projects.
- Designed, developed, and deployed TaskFlow, a task management web app, as the final project in the curriculum.
- Implemented CRUD functionality, user authentication, and session handling using React.js, Next.js, Python, and FastAPI.

ElderCare: A Mobile Management Application for Caregivers enhancing Elderly Support through AI-driven Sentiment Analysis

College of Computer Studies, TIP – Manila · June 2024 – January 2025

- Utilizes AI-driven sentiment analysis to interpret caregivers' information entries and support decision-making.
- Helps caregivers organize tasks, manage responsibilities, and enhance the quality of care.
- Processes data to provide informed recommendations, improving caregiving efficiency and standards.

SKILLS

Industry Knowledge: Agile Software Development, Typing, Information Technology

Tools & Technologies: React.js, Next.js, FastAPI, Visual Studio Code, Docker, GitHub, Git, Cascading Style Sheets (CSS), JavaScript, HTML, PHP, Java, SQL, Microsoft Word, Microsoft Excel, Security best practices

EDUCATION

Bachelor of Science in Information Technology

Technological Institute of the Philippines · Manila City · 2025

Science, Technology, Engineering, and Mathematics (STEM)

Thy Covenant Montessori School · Taguig City · 2021
