

RENATO REONER JR.

FULL STACK DEVELOPER | REACT · NEXT.JS · TYPESCRIPT · PYTHON/FASTAPI

TAGUIG, METRO MANILA, PHILIPPINES | DOMASIGREONER@GMAIL.COM | +63 967 205 4484

[TINYURL.COM/REN-PORTFOLIO](https://tinyurl.com/ren-portfolio)

SUMMARY

Full stack developer with 1+ year of professional experience shipping production features for an AI-powered marketing intelligence platform used by real clients — owning frontend work end to end (React, Next.js, TypeScript) while integrating with Python/FastAPI and MongoDB, and translating Figma designs and client requirements into responsive UI. Also maintains active side projects spanning community platforms and freelance client work.

EXPERIENCE

JUNIOR FULLSTACK ENGINEER

JUNE 2025 – PRESENT | REMOTE

CLIENT: NETOPIA.AI — PREDIKTA MARKETING PLATFORM

- Own frontend feature development for **PREDIKTA**, an AI-powered marketing intelligence platform that lets brands test and optimize ad campaigns before launch — Predikta-scored ads have shown **3.4x higher CTR** and **2.6x lower CPC** in real-world campaigns.
- Built audience-creation tooling with filtering across an **88K+ Filipino consumer dataset**, plus campaign management and creative testing/refinement workflows.
- Work directly with client stakeholders: translate requirements into functional features, triage **UAT feedback**, and ship fixes against a client-driven Gantt chart timeline.
- Integrate frontend (React 19, Next.js 16, TypeScript, TanStack Query, Zustand, Radix UI) with FastAPI/MongoDB backend services and AI prediction engines.
- Collaborate in a 3–5 person agile team; **promoted from intern to full-time** based on internship performance.

FULL STACK SOFTWARE ENGINEER INTERN

MARCH 2025 – MAY 2025 | REMOTE

- Built and enhanced features for the PREDIKTA Marketing App using React.js, Next.js, and FastAPI, aligned to Figma-based UI/UX designs.
- Completed a company-provided development curriculum (final project: TaskFlow, with CRUD, auth, and session handling), gaining hands-on real-world development experience in a fully remote, agile environment.

DATA ENTRY CLERK (WORK IMMERSION)

FEBRUARY 2021 | REMOTE

- Transcribed medical documents from PDFs/images into Word with high accuracy, building fast, high-volume typing and QA habits.

PROJECTS

BLACK ROSE — COMMUNITY ESPORTS PLATFORM

JUL 2026 – PRESENT | VOLUNTEER

- Built a tournament management platform ([blackrose.asia](#)) for a public esports community — Discord OAuth login, member/team profiles, multi-format bracket engines (Swiss-system with Buchholz/OMW% tiebreakers, Double Elimination), and an admin console covering the full event lifecycle (creation, entry approval, seeding, scoring, publishing).

Stack: React 19, TanStack Start, Supabase (SQL + RLS), TypeScript, Tailwind CSS, Capacitor

FREELANCE CLIENT PORTFOLIO WEBSITE

AUG 2026

- Delivered a custom portfolio site for an individual client end to end — translated their design direction and content requirements into a production build with a project showcase and integrated PDF/video viewers.

Stack: React 19, TanStack Start/Router, TypeScript, Tailwind CSS, EmailJS

PERSONAL E-PORTFOLIO

JUN 2025 – PRESENT

- Designed and built a personal portfolio site with dynamic animations, an EmailJS-integrated contact form, and SEO/performance optimization.

Stack: Next.js, React, TypeScript, Tailwind CSS, EmailJS

Additional Projects: TaskFlow — task management web app (React, Next.js, FastAPI, PostgreSQL) • ElderCare — capstone caregiver app with AI sentiment analysis

SKILLS

Frontend: React (incl. React 19), Next.js, TypeScript, JavaScript, HTML/CSS, Tailwind CSS, Radix UI, TanStack Query/Router/Start, Zustand

Backend: Python, FastAPI, MongoDB, PostgreSQL, RESTful APIs, JWT Auth, Supabase

Cloud & DevOps: AWS (SQS, S3), Google Cloud (Pub/Sub, Storage), Firebase, Docker, Git/GitHub

Practices & Tools: Agile/Scrum, Figma-to-code, UAT, Client Communication, VS Code, Postman

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

2021 – 2025

Technological Institute of the Philippines — Manila
